# PROTECTION & LUNA LED LIGHT

## PROTECTION COVER

We suggest to always use the protection cover to protect your outdoor umbrella from poor weather conditions or when not in use during the summer. The stain resistant and water repellent cover will extend their life for you to enjoy your umbrella whenever you like.

To enhance the durability and appearance, we recommend following our care instructions regularly.

## MAINTENANCE

To enhance the durability and appearance, we recommend following our care instructions regularly.

The umbrella should never be used in strong wind or rainy conditions. An open umbrella should never be left unattended.

The umbrella should be protected against blurring or damage by using its protection cover.

The protection cover can be placed over the umbrella and pole. Store the umbrella in a dry place when not in use.

Before use, you can apply an invisible film to make the canopy stain and water repellent by using a textile protector.

Clean the aluminium frame with a damp cloth, mild soap and water. Do not use any sharp tool to avoid scratches.

You can maintain and clean your canopy by following a few simple steps:

- Brush off loose dirt before it becomes embedded in the fabric.
- Hose down.
- Spot clean soon after stains occur with water and mild soap or textile cleaner (no detergents). Use a soft bristle brush to clean.
- Allow soap to soak in.
- Rinse thoroughly.
- Always let the canopy air dry completely before storing or covering.

Machine wash in cold water. Depending on wash load size, use normal amounts of mild laundry detergent and add 1 cup of bleach.

Allow fabric to air dry.
